

For school year 2017-18, NMSA had a total of 171 applicants. Art Chairs indicated it was a very talented pool of applicants with a number of qualified students being denied entrance do to enrollment constraints. Sixty incoming freshman were invited with three candidates choosing not to accept (one in Dance, Music and Theatre). Two candidates have been selected from the wait list to fill these spots and one additional candidate will be selected this week to fill the freshman class to capacity (60).

Initially no rising sophomores or juniors were invited do to grades being filled to capacity. After the admissions cycle, one junior and one sophomore student (both music) have indicated that they will not be returning. A rising junior music applicant has been invited to replace the junior and a rising sophomore will be invited this week.

As the incoming freshman hasn't been determined yet, the following data is based on 59 accepted students rather than 60. By weeks end, the 60th freshman will be identified and invited.

Entering 9th Grade (Total)
