

## External Studies

NMSA students who will study away from NMSA during the academic year are requested to inform the School's Principal of their plans at the earliest possible time. This is for planning purposes only. Students will be dis-enrolled from NMSA during their time away.

NMSA requests that students make every effort to continue to develop their artistic talent through involvement in their particular artistic discipline (music, dance, visual arts, or theater) during their time of study away from NMSA.

Upon returning home, students will be subject to arts probation for the first month of school.
